# Introduction

---

**Occupational wage and fringe benefit information** is much sought after in Montana because of its usefulness in business, educational, and personal career planning:

- Montana employers use this information in determining the wages and benefits they offer their employees.
- Out-of-state firms want to know what they would need to pay employees if they were to locate in Montana.
- Educational planners find the information useful in planning curriculums.
- School counselors make use of it in career counseling.
- Individuals want to know how much they should expect to be paid within specific occupations.

This publication contains **statewide** wage-and-fringe benefit information pertaining to private employers. Corresponding information reported by public employers will be included in an upcoming publication.

**Wage information has also been compiled for 10 regions within the state, and can be obtained by contacting the Montana Department of Labor and Industry's Research and Analysis Bureau; P.O. Box 1728; Helena, MT 59624; (406) 444-2430, or tollfree (inside Montana) 1-800-633-0229.**

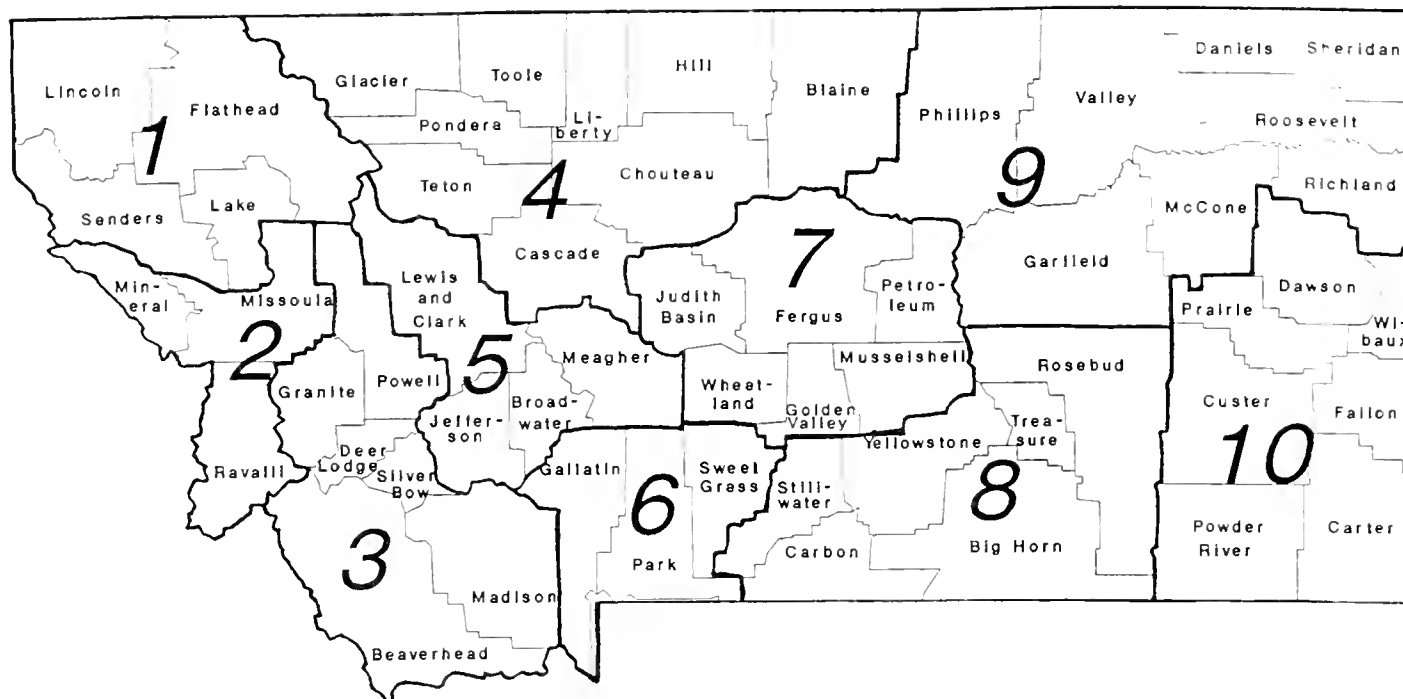

**See the map on the following page for information on which Montana counties are included in each of the 10 wage information regions.**

Please note:

- Non-agricultural wage rates contained in this publication meet alien certification criteria. However, wage rates are periodically updated, and a local Job Service office should be contacted for the most recent rate information before any wage rate is used for alien certification purposes.
- Wages in this publication are intended for information and planning purposes only, and are NOT to be used as prevailing wage rates. If you need prevailing wage rates for public works contracts, please contact personnel at:

The Employment Relations Division  
Montana Department of Labor & Industry  
P.O. Box 1728  
Helena, MT 59624  
(406) 444-5600

A sincere thank you is extended to: The many employers across Montana who took part in this survey; the Montana Department of Labor and Industry's Job Service Division; the Job Training Partnership Act (JTPA) program in Montana; the Montana State Occupational Information Coordinating Committee (SOICC); and all past-and-present Research and Analysis Bureau staff who helped with this massive, and at times overwhelming, project.

## Montana's Wage Information Regions \*

Region 1: Flathead, Lake, Lincoln and Sanders Counties

Region 2: Mineral, Missoula and Ravalli Counties

Region 3: Beaverhead, Deer Lodge, Granite, Madison, Powell and Silverbow Counties

Region 4: Blaine, Cascade, Choteau, Glacier, Hill, Liberty, Pondera, Teton and Toole Counties

Region 5: Broadwater, Jefferson, Meagher, and Lewis & Clark Counties

Region 6: Gallatin, Park and Sweet Grass Counties

Region 7: Fergus, Golden Valley, Judith Basin, Musselshell, Petroleum and Wheatland Counties

Region 8: Big Horn, Carbon, Rosebud, Stillwater, Treasure and Yellowstone Counties

Region 9: Daniels, Garfield, McCone, Phillips, Richland, Roosevelt, Sheridan and Valley Counties

Region 10: Carter, Custer, Dawson, Fallon, Powder River, Prairie and Wibaux Counties

\* Because of printing and distribution costs, only statewide information has been included in this publication. Please direct questions about regional wages, and requests for regional wage information packets to: Research & Analysis Bureau; Montana Department of Labor & Industry; P.O. Box 1728; Helena, MT 59624; (406) 444-2430, or tollfree (inside Montana) 1-800-633-0229.

# About the Survey

## 100 Percent Canvas of Private Employers

A previous wage-and-fringe benefit survey done by the Montana Department of Labor and Industry's Research and Analysis Bureau in 1986 produced statewide-only data drawn from a stratified sample. This survey produced both statewide and regional information, by occupation, collected from a 100-percent canvas of Montana's private employers covered by unemployment insurance. The only exceptions: 1.) Agricultural employers were not surveyed because selected agricultural wage rates are already provided through an agriculture wage survey conducted by the bureau. 2.) Construction employers were excluded because construction wages are determined through a prevailing wage survey, also conducted by the bureau.

Because of limited funds, only statewide information is presented in this publication. Regional wage information can be obtained, however, by contacting the Research & Analysis Bureau. (See the preceding page for specific information.)

(Please note: Wages included in this publication are intended for information and planning purposes only, and are not to be used as prevailing wage rates, which are wage rates that Montana law requires must be met or exceeded by employers with public works contracts. Official prevailing wage rates must be obtained from the Montana Department of Labor and Industry's Employment Relations Division, or local Job Service offices.)

## Montana

## Wages AND Fringe Benefits

## Two-Part Survey

The survey measured wage-and-benefit information for the week of Sept. 12, 1990. It was made up of two parts:

1.) The wage part of the survey involved sending survey packets to employers listing most of the common occupations found within employers' specific industries—along with blank survey forms for occupations that were not listed. Each employer was asked to list the number of employees within each occupation; the actual hourly wage, or salary, that each employee earned during the week of Sept. 12, 1990; the entry level wage paid for each occupation; and the number of hours worked in a normal work week. (See sample wage survey form on page 53.)

Wages and salaries were converted to hourly rates by reporting employers based on the number of hours that employees would normally work during the week. When employers didn't make the conversions,

Bureau of Research and Analysis staff converted monthly rates to an hourly rate by using 173.333 hours per month—and converted annual salaries to an hourly rate by using 2,080 hours per year. Wage conversion tables are included on pages 51 and 52 of this publication.

Some Montana workers, of course, receive pay that is not based on hours worked—but on sales commissions, per-unit production, etc. Occupations where workers are sometimes paid on a non-hourly basis are marked with a filled square (■) symbol in the statewide and regional wage listings. In addition, wage rates for the 19 occupations in Montana that were reported most often paid on a non-hourly basis are described on page 39 of this publication.

2.) Benefits questionnaires asked employers about the benefits they provide to their employees. Employers were asked who pays the cost of benefits, how many hours are worked in a basic work week, criteria for awarding wage and salary increases, the frequency of salary adjustments, and the number of weeks per year of paid vacation. (See sample fringe benefits survey form on page 54.)

Among the fringe benefits mentioned by surveyed employers were employee discounts ranging from 10 to 50 percent, profit sharing, free child care, maternity leaves for both males and females, and room and board. Employers said they gave Christmas bonuses of turkeys, gifts, gift certificates, and cash gifts ranging from \$25 to \$100. One organization gave bonuses at Christmas and in June.

Shift premiums ranged from 10 cents an hour to 50 cents an hour. Some employers gave shift premiums on Sundays or for night shifts.

When asked what wage and salary increases were based on, employers mentioned business climate, availability of funding, legislative fund appropriation, changes in minimum wage, and production incentives.

## Survey Response

Over half of the employers responded to the survey statewide—and, of the 10 regions surveyed within the state, only one fell slightly below a 50-percent response rate.

## Data Confidentiality

As with all other bureau surveys, information provided by employers was kept confidential. Consequently, some data was not published in order to protect the identity of individual employers. Data was considered to be non-publishable when:

- 1.) One firm had over 80 percent of the employment within an occupation;
- 2.) There were fewer than three firms reporting an occupation;
- 3.) Three firms reported an occupation, but fewer than four employees were employed within that particular occupation;
- 4.) Survey forms were not signed; or
- 5.) A firm requested that data not be published.

## Comments and Suggestions Welcomed

The Department's 1986 wage-and-benefit survey produced statewide-only information pertaining to 443 published occupations. This most current survey produced statewide and regional information pertaining to 690 occupations.

As always, the Department's Research and Analysis Bureau welcomes questions, comments and suggestions from the public: For instance, do you like information about lots of occupations—or would you prefer fewer occupations surveyed in more detail? Do you like regional wage-and-benefit information—or would you be just as satisfied with statewide-only data? Is there wage-and-benefit information that you would like to see included in future publications? Do you have questions about information included in this publication? **Please contact us at:**

The Research and Analysis Bureau  
Montana Department of Labor and Industry  
P.O. Box 1728  
Helena, MT 59624  
Phone: (406) 444-2430

## General Analysis of Survey Data

**Wage and fringe benefit comparisons** are difficult to make because surveys and studies rarely match up well enough to be compared on an equal basis. A 1986 state survey, for instance, produced statewide-only data drawn from a stratified sample—and cannot accurately be compared with data collected in this most recent survey, which included statewide and regional information collected from a more extensive survey of private employers in Montana. Likewise, national wage-and-benefit information has been derived from studies that do not align well enough in terms of methodology, occupational classifications and time frames to be compared with Montana wage-and-benefit information.

There are some general observations that can be made, however, that seem to support some national labor market trends:

- Montana appears to be following a national economic trend of employment growth in service-producing industries. The 24 occupations with the most reported workers accounted for 51 percent of all the workers reported by employers during the 1990 survey—and all of the 24 occupations are almost exclusively found in service-producing industries rather than goods-producing industries.
- Montana also seems to be following a national trend toward more part-time employment. Although a statistically valid comparison cannot be made between the two wage-and-benefit surveys, private employers reported significantly more employment in workweeks of fewer than 40 hours in 1990 than in 1986. This appears to be supported by data from the monthly Current Employment Statistics survey of private, non-agricultural

production workers conducted by the Research and Analysis Bureau. From 1986 to 1991, average hourly earnings for Montanans increased—while the average hours worked during each week declined slightly. Specifically, average hourly earnings for Montana workers increased by 47 cents from \$8.72 in 1986, to \$9.19 in 1990. Average weekly hours worked by Montanans declined by 0.9 hours from 33.5 hours in 1986, to 32.6 hours in 1990. Comparable national Current Employment Statistics data shows that average hourly earnings for U.S. workers increased by \$1.26 from \$8.76 in 1986, to \$10.02 in 1990. Average weekly hours for U.S. workers declined by 0.3 hours from 34.8 hours in 1986, to 34.5 hours in 1990.

### Montana

### Wages AND Fringe Benefits

- In addition, although per capita income levels are lower in Montana than in the nation as a whole, it appears that recent per capita income gains for the state are comparable with national gains.

Because it is not possible to definitively compare data from different wage surveys, per capita personal income information is sometimes used to get a feel for Montana's wage picture. U.S. Department of Commerce Bureau of Economic Analysis data shows that Montana per capita income rose by \$3,489 from 1986 to 1990—from \$11,781 to \$15,270. During the same time period, U.S. per capita income increased by \$4,037—from \$14,654 in 1986, to \$18,691 in 1990.

Of course, inflation and changing tax structures have an important impact on both Current Employment Statistics and Bureau of Economic Analysis wage and income data, and must be taken into consideration when making any wage or income comparisons.

# Interpretation of Wage Data

D.O.T. CODE	OCCUPATION	NUMBER OF EMPLOYEES	WEIGHTED AVERAGE	MEDIAN	MIDDLE RANGE	ENTRY LEVEL AVG WAGE	ENTRY LEVEL WAGE RANGE
(851.383-010)	IRRIGATION SYSTEM INSTALLER	10	6.88	7.00	5.00 - 9.00	NA	NA NA
(382.664-010) ●	JANITOR	1,194	5.11	5.00	4.25 - 5.38	4.92	1.44 - 13.52
(381.137-010) ●	JANITORIAL SERVICES SUPERVISOR	32	6.88	6.25	5.05 - 7.87	8.25	4.50 - 11.93
(700.281-010)	JEWELER	10	6.89	6.42	6.00 - 7.75	5.10	4.00 - 6.00

## Listed Alphabetically by Occupation

For the convenience of those using this publication, occupations are listed alphabetically within the statewide wage information section.

## Information from Left to Right

Information presented from left to right includes:

**D.O.T. Code:** An occupational code from the U.S. Department of Labor's *Dictionary of Occupational Titles*, which lists job descriptions for over 21,000 U.S. occupations. The first digit in each D.O.T. Code identifies the major occupational category that an occupation belongs to:

- 0/1 Professional, technical and managerial occupations
- 2 Clerical and sales occupations
- 3 Service occupations
- 4 Agricultural, fishery, forestry and related occupations
- 5 Processing occupations
- 6 Machine trades occupations
- 7 Benchwork occupations
- 8 Structural work occupations
- 9 Miscellaneous occupations

**Occupation:** The name of an occupation.

☐ Workers in occupations preceded by a filled circle (●) are required by law to be paid prevailing wage rates when they are involved with public works contracts. The wage information in this publication is to be used for informational purposes only. Prevailing wage rates are established by the Montana Department of Labor and Industry after surveying employers in 10 prevailing wage districts within the state.

These rates can be obtained from the Department's Employment Relations Division—or local Job Service offices.

☐ Workers in occupations preceded by a filled square (■) are sometimes paid on a non-hourly basis. (Non-hourly wage information begins on page 39, along with information about the 19 occupations that are most commonly paid on a non-hourly basis in Montana.)

**Number of Employees:** The number of workers reported within each occupation during the survey.

**Weighted Average:** Weighted for how many individual workers are employed at each wage rate. Each reported individual wage rate is multiplied by its corresponding frequency (number of workers), and then these products are added together to arrive at a sum total. The sum total is next divided by the total frequency (total number of workers) to determine the weighted average wage.

**Median:** The wage rate that divides the wage distribution into two equal parts. Half the reported wages fall above the median rate and half fall below it.

**Middle Range:** Includes the second and third quartiles of the sample distribution, or the middle 50 percent of the sample. Therefore, 25 percent of the wages are below the low end of the range, and 25 percent are above the high end of the range.

**Entry Level Average Wage:** Represents the average wage paid to those workers who meet the basic qualifications for the job, but who need additional on-the-job training and supervision before they are considered "journeymen" or "experienced" workers. The entry level average hourly wage may not be representative of the occupational sample due to the fact that many firms who provide wage information for experienced workers do not also provide entry level wage data.

**Entry Level Wage Range:** Shows the lowest and the highest entry level wages that were reported for each occupation.

## **Distribution of Employment Within Wage Ranges**

Information on the numbers of workers within each occupation being paid within specific wage ranges is not included in this publication because of space limitations. However, distribution of employment information is available, and can be obtained by contacting the Research and Analysis Bureau.

## **Unusually High or Low Wage Ranges**

High or low wage ranges can be misleading. Sometimes an employer pays a worker on a contract basis to get a specific

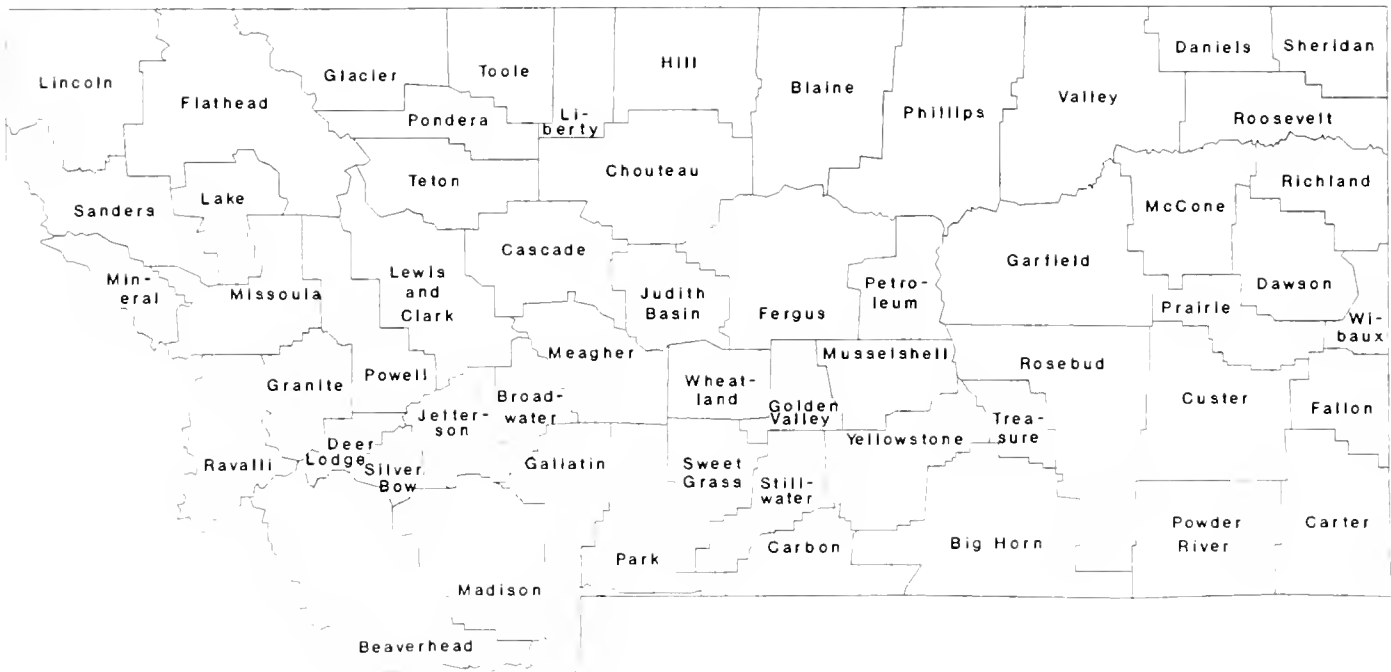

task accomplished. When that payment is converted to an hourly wage, it can translate into a very high, or a very low hourly wage rate. In one instance, a worker might be paid \$600 a month to clean an office building. If he/she worked 200 hours to fulfill the contract, the hourly wage would translate to \$3 a hour. In another instance, a worker might be paid \$200 a month to do bookkeeping for a business. If he/she worked 10 hours to complete the work, it would translate to a \$20-an-hour wage.

● Workers in these occupations must be paid prevailing wage rates when involved with public works contracts. Official prevailing wage rates can be obtained from the Montana Department of Labor and Industry's Employment Relations Division, or local Job Service offices. See "Interpretation of Wage Data" information on page 6.

■ Workers in these occupations are sometimes paid on a non-hourly basis. Non-hourly wage information is included elsewhere in this publication. See "Interpretation of Wage Data" information on page 6.

## Non-Hourly Wage Rates

Some Montana workers are not paid by the hour. Private employers who responded to the survey reported that they paid over 2,700 workers on a non-hourly basis. Of these non-hourly workers, about 60 percent worked in five Montana industries. Specifically, 588 non-hourly workers were reported in **Trucking, Except Local** (SIC 4213); 344 in **Logging** (SIC 2411); 299 in **Motor Vehicle Dealers (New & Used)** (SIC 5511); 262 in **Beauty Shops** (SIC 7231); and 138 in **Local Trucking Without Storage** (SIC 4212).

Nineteen occupations accounted for about 80 percent of all non-hourly wage rates that employers reported paying. Listed in descending order according to the number of non-hourly workers reported, non-hourly workers in the following occupations were paid accordingly:

**Tractor Trailer Drivers** (DOT 904.383-010)—Paid by the mile (\$0.078/mile—\$0.225/mile); commission or percent of gross (18—30%); or an hourly rate, plus mileage. Non-hourly drivers were concentrated in the trucking industry.

**Salesperson** (DOT 279.357-054)—Paid commissions ranging from 20 to 30 percent. Surveyed employers reported that most non-hourly salespeople worked in Montana's **Automotive Dealers & Gasoline Service Stations** industry.

**Hairstylist** (DOT 332.271-018)—Paid commissions ranging from 50 to 70 percent.

**Sales Representative** (DOT 254.357-014)—Paid primarily by commissions that ranged from 20 to 30 percent.

**Timber Faller** (DOT 454.384-010)—Paid by the log (\$0.75—\$2.00/log); by the tree (\$0.50—\$3.00/tree); per thousand board feet (\$1.50—\$15.00/thousand board feet); or by the ton (\$1.50—\$3.24/ton).

**Real Estate Sales** (DOT 250.357-018)—Paid by commission.

**Logger** (DOT 454.684-018)—Paid by the log (\$0.65—\$0.80/log); by the thousand board feet (\$12.38—\$18.00/thousand board feet); or by a combination of the two.

**Heavy Truck Driver** (DOT 905.663-014)—Paid by the mile (\$0.17—\$0.21/mile); percent of gross (20—30%); by the trip; by the day; or a combination of the preceding.

**Auto Mechanic** (DOT 620.261-010)—Paid by commission (40—55%); or an hourly wage, plus commission.

**Bus Drivers** (DOT 913.463-010)—Paid by the mile (\$0.20—\$0.50/mile); or by the trip (\$15.50—\$40.00/trip).

**Emergency Medical Technician** (DOT 079.374-010)—Paid by the run, or call.

**Sales Manager** (DOT 163.167-018)—Paid with commissions or bonuses. Employers reported that these workers were concentrated in automobile sales.

**Route Driver** (DOT 293.353-010)—Paid by the day; by the delivery; or by commission.

**Log Loader** (DOT 921.683-058)—Paid by the ton (\$0.50—\$1.75/ton); by the thousand board feet; or by the load (\$12.00—\$25.00/load).

**Retail Store Manager** (DOT 185.167-046)—Paid an hourly wage rate, plus commission; straight commission on sales; gross profit (13-20%); or with bonuses.

**Logging Tractor Operator** (DOT 929.683-010)—Paid by the log (\$0.65—\$2.30/log); by the ton; by the thousand board feet; or by the day.

**Lawyers** (DOT 110.107-010)—Paid a percentage of fees.

**Housekeeper/Cleaner** (DOT 381.687-014)—Paid by the room (\$1.15—\$3.80/room).

**Dental Hygienist** (DOT 078.361-010)—Paid a commission ranging from 36 to 50 percent.

### SIC and DOT Codes

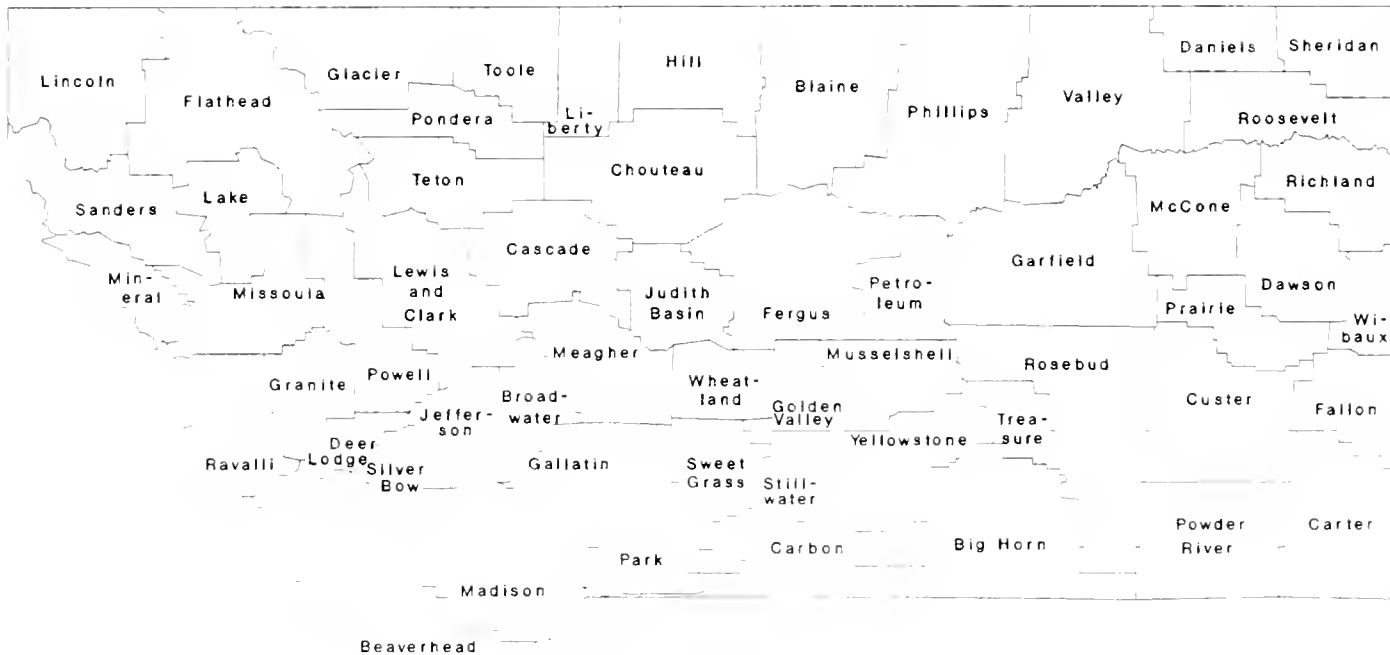

■ **SIC** stands for Standard Industrial Classification, which is a system developed by the federal Office of Management and Budget to classify business establishments on the basis of industrial activity.

■ **DOT** stands for *Dictionary of Occupational Titles*, which is a U.S. Department of Labor document listing job descriptions for over 21,000 U.S. occupations, and assigning each occupation a DOT number code.
